## PROFESSIONAL CONDUCT

---

The St. Mary's/Marshall University Cooperative Associate in Nursing Program strongly supports the standards of the West Virginia Board RN Board regarding the need for practitioners to be persons of good moral character who demonstrate responsible behaviors.

Applicants are advised that their conduct before and after submitting application to the School of Nursing will be considered in the admission process. Conduct derogatory to the morals or standing of the profession may be reason for denial or admission or dismissal from the program (WV Code 30-7-11(f)). Irresponsible behavior or conduct denoting questionable moral character will include, but not necessarily be limited to the following:

- Criminal activities – e.g. DUI, misdemeanors, felonies
- Use of illegal substances – e.g. manufacture, use, distribution, positive results on drug screen
- Cheating/dishonesty
- Harassment
- Domestic violence
- Discrimination
- Breach of patient confidentiality

Students are advised that misconduct while in the student role both on and off campus could result in dismissal from the program.

Have you ever pled “no contest” to, or been convicted of violating any law with the exception of minor traffic violations?

Yes     No

If yes, attach a description and explanation of your prior conviction history, including date of conviction, court, and details of each violation.

**NOTE:** Disclosure of a criminal record does not automatically disqualify an applicant from consideration of admission. Upon completion of the program, a graduate will be subject to the rules of the WV Board of Nursing regarding taking the NCLEX licensing examination. If you have concerns regarding this, please contact Dr. Trader, Program Director, at 304-526-1416.

## **DRUG AND ALCOHOL TESTING**

---

St. Mary's/Marshall University Cooperative Associate in Science in Nursing Program has adopted and enforces a drug and alcohol policy for all participants in its clinical program.

The school may require students to submit to a drug test upon reasonable suspicion or cause. In addition, the school may impose random drug testing for students undergoing treatment and/or rehabilitation for substance use disorder who are participating in safety sensitive training, including but not limited to clinical training, externships, and internships.

This policy also prohibits the use, possession, transportation, manufacture, sale, or distribution of alcohol and/or other non-medically prescribed controlled substances in the school or during school-sponsored functions or activities. It further prohibits students from attending class or other school-sponsored functions or activities while under the influence of alcohol or other non-medically prescribed controlled substances. The terms "school" and "school-sponsored" functions broadly include the school premises, classes, parking lots, and all situations wherein a student is representing the school in their capacity as a student.

The school expects excellence in the performance of all its students. If you believe a prescription drug prescribed by your physician may affect your performance, you should consult the director of the school. The school reserves the right to review a student's drug or controlled substance use occurring outside the school or school-sponsored functions to the extent that such use affects the student's class or clinical performance or adversely impacts the school in any way. If the school initiates such a review, the results may include disciplinary action, up to and including expulsion.

Please contact the director of the school if you have any questions concerning this policy.
